Dear Mr Holmes,

I refer to your submission LR079207, "Discharge of Treated Leachate to Sewer" relating to the addition of an emission to sewer discharge at Industrial Emissions Licence W0165-02.

The screening report in relation to the Licence Change Request was incorrectly answered, with 'No' indicated as the response to question 2 and 17, that is:

Q2 'Does the proposed alteration cause a new/additional main emission point?' and

Q17 'Does the proposed alteration require a change to a condition or schedule of the Licence?'.

If an alteration sought relates to a **new emission point** or a **change to a schedule** of the Licence, as this request does, it cannot be accommodated under the existing licence by OEE.

To progress this request, resubmit the Licence Change Request with a corrected screening report answering Yes to questions 2 and 17.

Yours sincerely,

Ciaran Cuddihy,

Office of Environmental Enforcement.
