Re: Reply to Agency Request for Further Information of 10 August 2026 - Industrial Emission Licence Application P1239-01

Dear Ms McDonnell,

Further to the Agency's letter dated 10 August 2026 regarding the absence of a site notice present at the Sdc-En Meath I Limited site located at Bracetown & Gunnocks, to the North of Clonee, Co. Meath, (Irish Grid Reference: E 302899, N 243140), during the Agency's site visit on 27th July 2026. We wish to clarify the following:

We can confirm that the site notices were erected on 16th June 2026, as evidenced by the original document submitted to the Agency (Appendix 1). However, due to an error in calculating the required display period, the notices were removed on 21st July 2026. The photos of the site notices on the date they were removed are provided in Appendix 2.

The calculation was based on one month from the date the notices were erected (16th June 2026), rather than one month from the date the application was submitted to the Agency (29th June 2026).

We wish to confirm that the site notices have been re-erected at the site today (Appendix 3). The notices display the original site notice erection date of 16th June 2026.

In light of the above, we would be grateful if the Agency could confirm whether it would be acceptable for the site notices to remain in place for a further ten days to compensate for the period during which they were inadvertently removed earlier than required.

Please do not hesitate to contact us should any queries arise or where further information is required.

Sincerely,

On behalf of the client,

AWN CONSULTING LTD

Teri Hayes

Director
