

Mr Pól Ó Seasnáin,
Environmental Protection Agency,
Inniscarra,
Co. Cork,
Ireland

6th April 2023

IE Licence Reg. No. P0029-06

Dear Mr Ó Seasnáin,

In accordance with Licence P0029-06, Irish Cement would like to notify the agency of their intention to accept SRF material, EWC code 19 12 10, from Thorntons Recycling. As agreed with the Agency, Irish Cement will only accept material from suppliers where conformance with acceptance criteria has been demonstrated in advance. Ongoing independent analysis of SRF from Thorntons Recycling will be carried out and will include elemental analysis and trace metal analysis. Irish Cement will ensure that the requirements of the EN 15359:2011 Standard is adhered to.

In accordance with Licence P0029-06, please find attached a copy of the analysis certificate for a sample of SRF taken from the facility in Balbriggan, Co. Dublin. The analysis was completed in an ISO 17025 accredited laboratory, Knight Energy Services. A full suite of analysis was completed on the sample, including heavy metals.

I trust that you find the attached agreeable. Please do not hesitate to contact me should you have any further queries.

Yours sincerely,

Eve Howard
Environmental Manager
